

The Gin EXPERIENCE

10 Things You Didn't Know About Gin . . .

1. Gin is for cocktails - not on its own
2. There are more classic cocktails made with gin than with any other spirit
3. Holland made gin first
4. London dry gin is not always from London
5. One man deserves recognition - Desmond Payne is currently the master distiller for more than 17 years.
6. A martini means gin
7. Gin can be used for medicinal purposes
8. Gin is flavored vodka
9. The Philippines consume the most gin
10. Saying you don't like gin is like saying you don't like sauce

Inverroche Amber

To create Gin Amber, the two unique areas are that the Fynbos selected for vapour infusion are from coastal regions of South Africa (coastal Fynbos is aromatic and spicy).

On the nose, the gin is mellow and a touch more spiced. Red bush, Rooibos tea flavours emerge to taste with hints of sweet toffee apples that give way to delicate florals.

ClemenGold

The ClemenGold Gin is infused with 9 botanicals, including juniper berries, angelica root, coriander, almond, orris root, sundried ClemenGold peel, orange peel, cinnamon, and honey.

Inverroche Verdant

This gin has a more delicate floral aroma, almost reminiscent of elderflower & chamomile. The term, "Summer Bloom" really captures the flavour of this gin as it's both fresh and floral, with a slight acidity.

Musgrave Pink

Spicy, warm Cardamom and Juniper share the first taste to the palate and is supported by the distinctive African Ginger and Grains of Paradise with vanilla, pepper and ginger notes. All this balanced by Kafir lime leaves and citrus and then complemented by the gingery spiciness of coriander.
